EDUCATION

University of California, Berkeley <i>B.S. Electrical Engineering and Computer Sciences (EECS), Aug 2025 - Dec 2026</i> Coursework: CS 61B, CS 70, CS 170, CS 184, EECS 16A, EECS 106A. Stanford Summer School 2025: CS 229 Machine Learning.	Berkeley, CA
De Anza Community College <i>Computer Science transfer coursework, Sep 2023 - Jun 2025</i>	Cupertino, CA

SKILLS

AI/ML: agent evaluation, benchmark infrastructure, PyTorch, TensorFlow, CUDA, LLaVA, OpenCV
Agent Systems: agent harnesses, tool-calling workflows, VM/GUI/CLI evaluation, artifact capture, Claude Code, Codex, Cursor, Grok, Droid
Engineering: Python, TypeScript, FastAPI, React, Docker, Modal, REST APIs, GraphQL, WebSockets

EXPERIENCE

ENGR Team Co-Lead, UC Berkeley BAIR - Agent's Last Exam <i>AI agent evaluation, benchmark infrastructure</i> - Co-first author on a arXiv-published benchmark evaluating frontier AI agents on real professional workflows across 55 sub-fields. - Converted expert-submitted tasks into executable benchmark instances with reproducible GUI/CLI runs and deliverable-based scoring.	Jan 2026 - Present
Robotics AI Engineering Intern, Starbot <i>Agent harness for restaurant service robots</i> Built agent harness with tool APIs, task-state orchestration, and recovery paths for ordering, delivery, and customer-service workflows.	Dec 2025 - Feb 2026
Undergraduate Researcher, UC Berkeley - Prof. Avideh Zakhor <i>UAV small-object detection and tracking</i> Benchmarked UAV detection methods against 1,600 manually annotated DJI frames and evaluated optical-flow/background-compensation pipelines.	Mar 2026 - Present

PROJECTS

AI Mario Level Generator <i>HackMIT 2025 Modal Sponsor Prize</i> Built sketch-to-playable-level pipeline with LLaVA 1.5, H100 inference on Modal, FastAPI, React, and OpenCV.	Sep 2025
Context8 - context8.org <i>Agent knowledge system</i> Built self-evolving knowledge system for AI agents, turning solved bugs into reusable agent memory.	Oct 2025 - Jan 2026
